#### Maxwells Invade Nogales.

Of uncommon interest to the public is the news that the Nogales Auto company has taken the exclusive agency for the justly famous "Maxwell 25, car for Santa Cruz county and the west coast of Mexico. This little car has created a real sensation throughout the states in that it is practically the only car that has ever been designed that is a fully equipped motor car, containing all the features of high grade automobiles, and still weighing considerably less than 2,000 pounds. It has a very powerful motor and is standing up perfectly under the most gruelling service. A rough roll-ing country, similar to the country around Nogales, seems to be the place where this car shows to best advantage, in that it is very light and powerful.

The organization of the Maxwell company, by their policy of giving service to Maxwell customers during the life of the car, sending expert service men around to call on all owners giving them instruction and looking over their cars, is doing much to increase the popularity
